

## Quality Policy Statement

It is Iplex Pipeline's vision to be the "Leader in plastic building materials in New Zealand."

We are committed to achieving the highest standards of quality across our business practices and operations.

Quality performance is the foundation of our company's culture, and is driven by our people working "Better Together" to deliver quality performance to the highest level for our customer's, and we will:

- **Be "Customer Leading" and understand our customer's requirements and expectations.**
- **Safely and efficiently manufacture quality products that meet or exceed requirements of relevant standards, while reducing risk exposure to Iplex and our customer's.**
- **"Be Bold", by ensuring our leaders cultivate and maintain a culture committed to continual improvement.**
- **"Play Fair", by ensuring that our ISO 17025 accredited laboratory operations are empowered to operate in an objective and impartial manner – free from any commercial, financial or other pressures that would compromise impartiality of inspections.**
- **Maintain third party product certification form internationally recognised certification bodies.**
- **Commit to resourcing our operations to support our quality strategy.**
- **Maintain certification to ISO 9001:2015.**

A handwritten signature in blue ink, appearing to read "Melaine Cummings".

**Melaine Cummings**  
General Manager
